

Brass Padlocks with Chrome Finish

Yale®

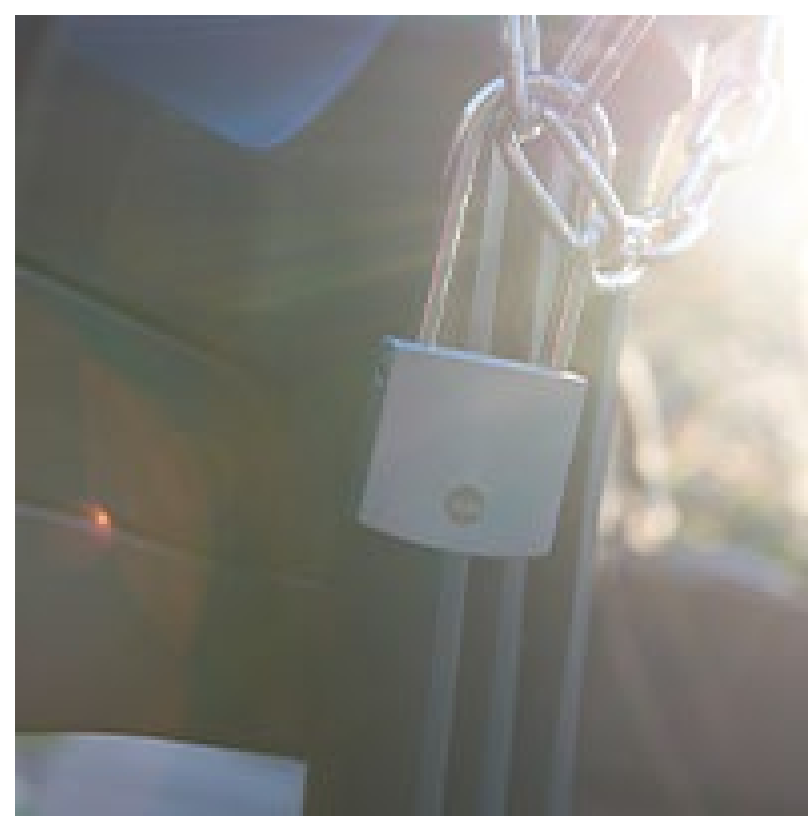

Yale, inspired by the past, is creating the future of security.

With 180 years of manufacturing expertise, we are introducing our padlocks with an exclusive Yale design and tested to EN12320:2012 standard for added security and reassurance, built with you in mind.

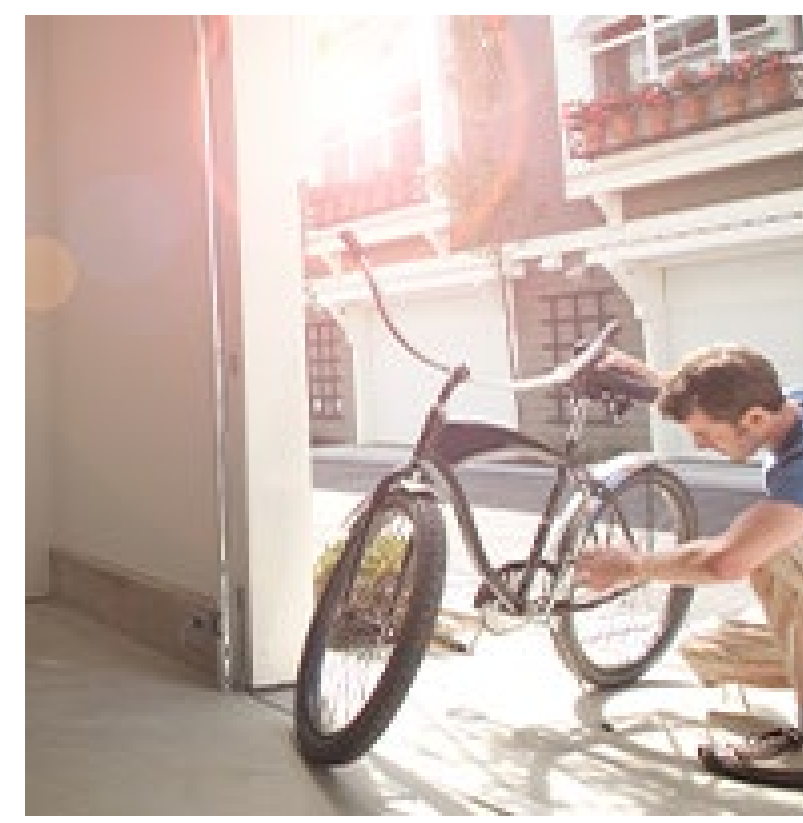

Designed for outdoor usage

Suitable for your garden shed, shutters or a garden gate that you want to keep safe and secure. Yale takes care of your possessions; you take care of the rest.

Extreme testing

Tested to EN12320:2012 to simulate forms of attack such as cutting, twisting and pulling of shackle and tested up to 240 hours for corrosion resistance to withstand different weather conditions, for your peace of mind.

Enhanced security

Even that special bike can be kept safe and secure in your garage with a Boron shackle to prevent cutting and double locking for added security, built with you in mind.

Exclusive Yale design

With four different sizes and standard or short shackle lengths to suit your every security need.

A journey towards more sustainable packaging

We've been working with more sustainable materials and reducing the size of our packaging to lower our environmental footprint by 10%. Enabling us to improve the sustainability of the Yale Padlock packaging range.
