

**Yale Maximum Security Chain Lock**

**For peace of mind, protect your bike with Yale.**

Yale Maximum Security Chain Locks have been designed for versatile locking options around larger objects such as bikes, motor scooters, barbecues, garden furnishings or moveable possessions.

**Features:**

- Mini U-Lock with ultra secure four point locking for maximum resistance to pulling & twisting
- Pick, pull, bump resistant mechanisms
- Double rubber protective coating on the Mini U-Lock protects bike's finish & lock's internals from impact
- Titanium enforced hexagonal hardened steel chain offers protection from all forms of attack
- 4 laser cut keys, including 1 with micro-light
- Lifetime guarantee
- Sold Secure rating: Gold in Pedal Cycles and Silver in Motor Scooters

**Designed to resist all forms of attack**

For absolute peace of mind when you leave your moveable possession, lock it up with a Maximum Security Chain Lock that is resistant to many forms of attack including pick, pull, bump and drill.

**Heavy duty protection**

The four point locking provides maximum protection against pulling & twisting and hexagonal hardened steel chain offers protection from all forms of attack.

**Built to last a lifetime**

Pedal Cycles Sold Secure Gold and Motor Scooter Sold Secure Silver ratings confirm that our Maximum Security Chain Locks provide the highest level of security to protect your bike.

**Protective coatings**

The bike lock's double rubber bumper protects the interior from bumps and the bike's paint and surface from scratches.

**Maximum Security Chain Lock 1100mm**

**Maximum Security Chain Lock 1800mm**
